

# I FOUND YOUR LOST TOOTH

Dear \_\_\_\_\_

My network of fairy friends told me that you cant find your lost tooth. I visited you last night and thought I might help you find it.

I flew around your house last night and with the help of a little magic and a lot of fairy dust, I found it!

I know that this tooth is very special to you that's why I left something special for you under your pillow. I hope that you like it.

I will take care of your tooth and I am looking forward to visiting you again.
